Being an  
**ALMANACK**  
FOR

The Year of Human Redemption 1704, it  
being the *Bissextile* or *Leap Year*.

Whereto is contained  
All things fitting for such a Work,

First, a Table of the *Terms* with their Returns; Secondly, a Table of all the Kings and Current Reigns from King Egbert, to this present Reign;

Thirdly, the Fulls, Changes and Quarters of the Moon, the Conjunctions of the Moon with the other Planets, the Rising, Setting, and Southing of the seven Stars, and other fix'd Stars of note; with the Moon's Age to every Day of the Month, and a Tide-Table fitted to the same. As also the Rising and Setting, both of the Sun and Moon, the mutual Aspects and Weather, with monthly Observations very necessary

Fourthly, a plain and easy Table of Interest, with a compendious Chronology of many remarkable things.

Fifthly, the Eclipses of the Luminaries, and Astrological Observations on the Four Quarters of the Year: And also the Births and Marriages of all the Crown'd Heads, and Eminent Princes of Europe.

Unto which is added,

A strange Prophecy relating to the French King; and many other Predictions concerning these Times.

Rectify'd chiefly to the Meridian of London whose Latitude is Degrees, 52 Minutes North; but will serve without any sensible Error for any part of Great-Britain or Ireland.

By FRANCIS MOORE, Licens'd Physician, and Student in  
**ASTROLOGY.**

Behold God is excellent, and we know him not, neither can  
the number of his Years be searched out, Job 36. v. 26.

LONDON: Printed by Tm. Hudson, for the Company of  
STATIONERS.

To the Most High and Mighty Princess  
A N N E, by the Grace of God,  
Queen of England, Scotland, France, and Ireland,  
Defender of the Faith, &c.

Great Madam,

Y O U R Royal Presence well becomes the Chair,  
Whilst all your Foes are fill'd with Doubt and Fear;  
'Tis You that rules our little *Albion* Isle,  
And th' Heavens upon your Royal Actions smile.  
For Valiant Fears, and Noble Acts of War,  
None with your Warlike England can compare;  
A Land that doth with Milk and Honey flow,  
Like old *Canaan*, where did all Plenty grow.  
To which proud *Spain*, in time, will gladly yield,  
And *Spain* as easily will quit the Field;  
Neither by Sea nor Land shall *Spain* will fight,  
Remembering yet, their fatal Eighty Eight.  
You trust in God, the Mighty Lord of Host,  
Whilst of their silly wooden Gods they boast;  
The rugged blustering Nations of the North,  
To this of Yours, at but of little worth;  
Nor the vast Empires of the rising East,  
Nor the Mines of Gold found in the West.  
The once fair *Italy*, is now grown poor,  
Compar'd to this small Island's wealth and store;  
The happiest Place that ever Mortal knew,  
Were it not for a dar'd, unquiet Crew;  
Th' placed in the Temperate Zone compleat,  
Not chill'd with extreme Cold, nor scorch'd with Heat;  
Her fertile Fields doth load the Barns with Store,  
The Rich are full, and may assist the Poor;  
Her Pastures fat, her Flocks and Herds increase,  
The Lambs come Home well loaded with their Fleec;  
Here's nothing wanting for the Wife (but Fools)  
With Toys may be supplied by Foreign Tools;  
Let such in Gallick Chains and Fetters be,  
And walk in wooden Shoes (still) we are free,  
Doubting not, but free Subjects to remain,  
Under Your Majesty's Auspicious Reign.  
And where to Wars Your Mighty Forces go,  
They fright the Coward, and beat Your daring Foe.  
Whilst You rule Monarch of this Warlike Land,  
The Lord will prosper what You take in Hand,  
God bless Your Majesty and give You Comfort,  
Both of Your People, and Your Royal Consort.

PIVAT REGINA.

A Jack once dwelling near unto a Sprat,  
Would needs turn Lawyer, for I know not what,  
Except it were to turn a Fish of Prey,  
And drive the other silly Fish away.  
A Jack is fat, so is this Lawyer too,  
And often makes the other Fish to rue.  
Some take the harmless Fish under small Stones,  
But he feeds most upon poor Woodcocks Bones.  
His Trade of Tricking he will never change,  
Till he falls headlong in the Hangman's Net.

 She's faithful to her Word, true to her trust,  
 She's Meek, she's Pious, Merciful and Just.  
 Therefore let's pray that the long time may reign  
 In Health and Peace, the Gospel to maintain.

*The Use and Explanation of the Almanack.*

**O**N the Left-hand Page there are eight Columns; the first shews the Days of the Month, the second the Days of the VWeek, the third shews the Fast and Festival Days used in the Church of England, as also the Rising, Setting, and Southing of the 7 Stars, and other named fixed Stars; the fourth shews the Sun's Place; the fifth the Moon's Dominion over the Body of Man; the sixth shews the Moon's Age to every Day of the Month, which answers to the Moon's Age in the Tide Table, and is the most easie and readiest way to find the Time of High-water at all the Ports and Places found in the Table; the seventh Column shews the Time of the Moon's rising and setting in Hours and Minutes; from the Change to the Full you have the Time of her setting in Hours and Minutes; and from the Full to the Change you have her rising also in Hours and Minutes, A. standing for Afternoon, and M. for Morning. *Example:* Suppose you would know when the Moon sets on the 26th Day of January this Year, over-against which Day in the Column of the Moon's Rising and Setting you have 6. 40. which shews the Moon sets at 6, and 40 Minutes past, in the Afternoon, denoted by A standing over it: And so of the rest. The last Column of this Page, shews the mutual Aspects of the Planets and the VWeather.

The Right-hand Page hath five Columns; the first shews the Day of the Month, according to the *English* Account; the second by the *Roman* Account; the third the Rising, and the fourth the setting of the Sun; (thus :) On January 13. the Sun rises at 7 a Clock, and 46 Minutes past; and sets at 4, and 14 past; and so of the rest. The fifth and last Column shews the Falls, Changes, and Quarters of the Moon, with Astrological Observations on every Month.

# January hath xxxi Days.

Amongst the Crowd my Offering will I bring,  
And our Great ANNA's Praises loudly sing.  
No Tyrant P<sup>o</sup> before her Face can stand,  
Whilst She rules Monarch of this warlike Land.  
Away bold Lewin, with thy Perkin-Ring,  
England's more wise, than honour such a thing.

Drive on Great Queen, Your Cause is good and just,  
Your foes Foundations are but laid on dust:  
It is not Force, but Faith that wins the Field,  
And makes the most ambitious Tyrant yield.  
This makes the Wicked often in a night  
Wander like airy Phantoms of the Night.

First Quart. the 1st day at 1 afternoon  
 At the last Lutation all the Planets  
 were under the Earth except Jupiter  
 who was posited in the Western An-  
 gle. Mars now Transits the Place of  
 the Sun's Eclipse in December last, and  
 is lately separated from the opposite  
 Place of that of the Moon in that Month  
 also, and those things that have laid hid,

Full Moon the 10th day at 10 noon  
 of kept secret for some time, will now be-  
 gin to appear in their own Colours; great  
 Preparations for the Actions of the ap-  
 proaching Summer. The Square of Sa-  
 turn and Mars creates Quarrels, Duels,  
 Skirmishing, and such like, as you will

Last Quart. the 27th day at 3 afternoon  
 heat from many Places; as Germany,  
 France, Polonia, Saxony, Swedeland, Ro-  
 mania, &c. and self Murders even in  
 England &c. A young Clerk receives  
 Preferment; great Preparations both by  
 Sea and Land. God speed the Plough.

New Moon the 24th day at 11 before noon  
 Hold fast You Great Allies, hold fast  
 Your own  
 And drive the mighty Tyrant from his  
 Throne.

April

# April hath xxx Days.

Now with a just Revenge pursue your Foes,  
 And the Great Gallie Tyrant's Foes oppose.  
 Marched his Fleet by Sea, and Foe by Land;  
 And in Amaze make Front and Rear to stand.  
 Drive all your Foes to Regions of distress,  
 And let your Sword your Honour still declare.

## Astrological Observations.

1	128	113	49	Now to conclude this Year's Observa-
2	138	113	49	tions, observe, that the last Lunation
3	148	123	48	was a full Moon, at which time the La-
4	158	123	47	ty of the Night suffered an Eclipse in
5	168	123	47	the Western part of the Heavens; it
6	178	133	47	happened in <i>Gemini</i> , the Ascendant of
7	188	133	47	<i>London</i> , <i>Brabant</i> , <i>Mentz</i> , and some Places
8	198	133	47	<i>Last Quart</i> the 8 <sup>th</sup> day at 11 bef. noon.
9	208	133	47	in <i>Spain</i> and <i>Flanders</i> ; and I doubt not
10	218	133	47	but you will hear of <i>Thefts</i> , <i>Roberies</i> ,
11	228	133	47	<i>Piracies</i> and <i>Slaughters</i> , and much Vil-
12	238	133	47	lany acted to purpose. Now <i>Christmas</i>
13	248	133	47	draws nigh, and he that feeds the Poor
14	258	133	47	is a good Steward; and so I conclude
15	268	133	47	<i>New Moon</i> the 15 <sup>th</sup> day, at 6 night.
16	278	133	47	my Judgments of this Year.
17	288	123	48	Therefore to him alone, that ordereth and
18	298	123	48	disposeth all things according to his Will, and
19	308	113	48	that created the Heavens and the Earth, Pla-
20	318	113	49	nets and Stars, and called them all by their
21	328	113	49	Names, and made them differ from each
22	338	103	50	<i>First Quart</i> 22 <sup>d</sup> day, at 10 morn.

If you would know the Interest of one hundred Pounds for one  
Month, two Months, three Months, six Months, nine Months,  
or a Year, look for 100 l. in the side, and in the next Column under  
one Month is ten shillings, for 2 Months one Pound, for 3 Months  
one Pound ten Shillings, for 6 Months three Pounds, for 9 Months four  
Pound ten Shillings, and for a Year six Pounds; and so of the rest.

*This is the honest way by which Men should*

*Of the Eclipses this present Year, 1704.*

**F**OUR times this Year will the two great Luminarian Lights of Heaven be eclipsed from our Sight (*viz.*)

Twice the Sun, and as often the Moon.

The *First* of which will be of the Sun on *May* the 22<sup>d</sup>. a little after Noon, yet will not appear visible to us, neither will it be but a small Eclipse where it will be seen.

The *Second* will be of the Moon, on *June* the 6<sup>th</sup>, about six of the Clock in the Evening, but cannot be visible here neither, by reason the Sun at that time will be above the Horizon, and the Moon below, and will not rise before the Eclipse be ended, yet the Eclipse will be total to those Places where it will be seen; it happens in *Sagittarius*, the House and Dignities of *Jupiter*, of which I shall speak something in my Observations of the Months, &c.

The *Third* is an invisible Eclipse of the Sun, on the 16<sup>th</sup> day of *November*, a little past 5 in the Morning, but not to be seen by us, but to the more Eastern Parts of the World, as in the Provinces of *India*, the Islands *Des Romeres*, and Parts adjoining.

The *Fourth* and last will be of the Moon, and happens on the 30<sup>th</sup> day of *November*, about seven in the Morning, in 19 Degrees of *Gemini*, the Ascendant of *London*. The Moon sets before the Eclipse is over, and five Parts, and better, of the twelve will be obscur'd from our Sight: And so much for the Eclipses of this Year.

## Observations on the four Quarters of the Year,

### • And first, Of the Winter.

Which takes its beginning at such time as this Terrene Star toucheth the first Point of the Coelestial Crab, or Sign *Cancer*; or that glorious Lamp of Heaven, the Sun, doth enter the first Scruple of *Capricornus*, or the Coelestial Goat, which happen'd on December the 11th. 1703, at 11 Minutes, 23 Seconds past 11 before Noon, according to Mr. *John VVing's* Tables in his *Scientia Stellarum*, but according to Mr. *Street's* Tables in *Astronomia Carolina*, at 20 Min. and 48 Seconds past 11 before Noon. By the former we have the very latter part of *Aquary* Ascending, and 18 Degrees of *Sagittarius* on the Cusp of the Mid-heaven; *Saturn* in the Figure is located in the second House, in 16 Degrees of *Aries*, near the Place of the Sun's Exaltation, and at the same time is in square to him from his own House, and is newly become Tenant to the old Gentleman, who is beheld at the same time by a Trine of *Mercury* in *Sagittarius* in the ninth House, and this, with the Sun's Eclipse this Month of December, might cause some damn'd Roguish Tricking, or sly Practices, indeed it smells a little of a Jesuitical Faction: God preserve the glorious Queen of *Great Britain*, and for ever defend her from all danger; if there be any such a thing as a Plot, or grumbling against the Government, I hope the Trine of the Sun and *Jupiter* will blast all; many great Counsells and Debates th's Quarter, about Matters of great Concern, I hope it may tend to good, yet before this Quarter be done some will be degraded, and may thank their own Folly and Ambition for it. Some Parts of *Greece*, *Muscovia*, and *Saxony*, will be under some Trouble before this Quarter ends, and it is not strange if we hear of many violent Deaths and Self Murders in many Places; and the Female Sex will not go free, for they for Love, or some other foolish Cause, will, some of them, be apt to lay violent Hands upon them-

themselves. The Diseases of this Quarter will be chiefly such as proceed from Imperfections in the Breast and Stomach, as weak Digestion, Pissick, rotten Coughs, Impostumations in the Stomach, as also Pains in the Legs and Feer, the running Gout, in which the Hands and Arms will not go free; and this brings me to the next, which is the

*Spring Quarter.*

Which commenceth at such time as the Earth touches *Libra*, or bright *Phebus* mooves the first Point of the Coelestiall Ram or Sign *Aries*, making the Days and Nights of equal length with us, and happens this Year on *March* the 9th. at 16 Minutes 41 Seconds past one of the Clock in the Afternoon, by my very good Friend, Mr. *John Wing's* Tables in *Scientia Stellarum*, but by *Astronomia Carolina*, 52 Minutes 36 Seconds past Noon, and by other Tables a great difference from both; therefore I shall omit the vulgar way of setting Schemes for the Ingresses, finding no certainty in it, and shall, as formerly, consider the Lunation preceeding the Ingress, with some other Observations not commonly known, and proceed to give my Judgment on this Quarter, only I shall give you a short Account first how the Heavens are posited at the time of the Ingress, according to Mr. *John Wing's* Tables, and

First, we have 10 Degrees of *Leo* ascending on the Cusp of the first House, and twenty Degrees of *Aries* on the *Medium Caeli* or tenth House. *Saturn* is posited in the tenth in 20 Degrees of *Aries*, the House of *Mars*, and *Jupiter* located in *Taurus* there also. *Mars* is in the sixth in *Capricornus*, the House of *Saturn*, a very fair Change, and they behold each other with a hopeful Square. *Venus* is posited in the seventh in *Aquarius*, and *Mercury* in the eighth, near the Cusp of the ninth, in *Pisces*; and the *Moon* in the second, near the Cusp of the third, in *Virgo*. Quickly after the Ingress, happens an unhappy Square of *Saturn* and *Mars* from *Aries* and *Capricornus*; This will stir up Men to quarrel, and cause Duelling, Murder,

Murder, and Rapine; and I am afraid you will hear of many Self-murders from many Places. *Mars* is swift in Motion, and those things portended by him will be as quick. God preserve our antient City of Oxford, that noble Nursery of Piety and Learning, from Fire, Fevers, and all other Evils, and keep her in Peace and Safety both this Year, and for ever. The Reverend and Learned Clergy now will flourish (those I mean) whose Right it is to preach the Gospel of Jesus Christ; therefore, O Lord, grant them Courage to preach thy Word boldly, plainly, and powerfully, to the rooting out and pulling down of Anti-christ; and let every faithful Minister of the Gospel cry out with St. Paul in his first Chapter of his Epistle to the Romans, and the 16th Verse, thus; I am not ashamed of the Gospel of Christ, for it is the power of God unto salvation to every one that believeth, to the Jew first, and also to the Greek; and in the 17th Verse he adds, that therein is the righteousness of God revealed from faith to faith, at it is written, the just shall live by faith; so that

*The Gospel now is preached without Fear,  
To give Offence unto the Holy Chair;  
No Canting, nor passive Obedience, (now)  
A Man may boldly say, God bless his Cow.*

indeed, I fear some grumbling amongst unruly Spirits, but their Hope and Ends is vain, and all their Contrivances will come to nought. If the French Tyrant be inclin'd to Peace, as I think now he would be glad to see it. I hope the Queen and the Confederates will remember the Words of that never to be forgotten Monarch, King William the Third, to "Make no Peace with him, but with the Sword in Hand, and bind him, if possible, as fast as ever the Angel bound the old Dragon, that he may never rise again, till he comes to answer for all the Evils he hath done."

And now proud Tyrant, listen to the Cry,  
 For Blood for Vengeance cries to God on high.  
 Nero, a Heathen, did the Christians kill,  
 But here's a Christian, Christian's Blood doth spill;  
 (A Christian) Author of so vile a Work!  
 No more a Christian, but a Christian Turk.

The Merchants may expect good News from abroad, yet there is some sly Practice on foot, which a small time will bring to light: It may be some scribbling, or Paper Lies, may be discover'd, and the Contrivers punish'd for their Pains. Two eminent Ones seem to be at difference, but they had better agree, for one Frown of a Prince will lay their Passion, and it may be, eclipse their Honour too. The World is still in a Hurry, but I hope when the Disturber of our Peace is brought low, we shall see many happy Years. In the 13th Chapter of the 2d of Chronicles, you may read the Down-fall of Jeroboam the Son of Nebat, who made Israel to sin, in going a whoring after strange Gods; when his Sins were full ripe, then God overthrew him by the Hand of Abijah, who pursu'd after him, and took his Cities, even Bethel, Jeshannah, and Ephraim, with the Towns belonging thereunto, neither did he recover Strength again, for the Lord struck him that he dy'd. Now therefore, what can he expect, who, in cool Blood, has murder'd so many of his own Subjects, and all because they would not worship the true God in a false and Idolatrous way?

Shall not his Coast in Dust and Ashes lie?  
 Shall not his Glory and his Honour die?  
 Shall not the Lion on the Lilly tread,  
 And tear the Crown from off the Tyrant's Head?  
 Shall he not lose both Towns and Cities too,  
 Who made so many thousand Souls to rue?  
 Shall he escape the mighty Hand of God?  
 Or shall he flee from the Almighty's Rod?  
 No, he that won't repent shall surely fall,  
 And lose his Crown, Honours, and Life, and all.

And

And now to conclude this Quarter, the principle Diseases thereof are Leprosies, Scabs, Itch, Distillations of Rheum, Melancholly, Vapours in the Head, Obstructions, and such like; and this brings me in the next place to consider of the

*Summer Quarter, beginning on Saturday*

Which takes its beginning this Year on Saturday the tenth of June, at 41 minutes past one of the Clock in the Afternoon, by *Scientia Stellarum*, but by *Astronomia Carolina* 16 minutes later; by the former, about 27 degrees of *Libra* ascends the Horizon, and 22 degrees of *Cancer* culminates. The Sun is in the ninth House, near the Cusp of the tenth; *Venus* and the *Dragon's* head are in the ninth also in *Gemini*; *Jupiter* in the eighth, near the Cusp of the ninth; *Saturn* is in *Taurus* near the Cusp of the eighth; *Mars* is in *Pisces* near the Cusp of the sixth; and the Moon in the fifth in square to *Saturn*. At the time of the Ingress there is a Conjunction of *Jupiter* and *Venus* in *Gemini*, which shows some secret Conversation, rather than a celebrated Marriage between two, it may be of no small Rank; if a Marriage, a fatal one, (Ladies beware.) Religion will be encouraged, God give the People Grace to observe the Laws both of God and the Kingdom. The Enemies of England are brought low, let her People but love the Lord their God with all their Hearts, and then one Man shall chase a thousand, for the Lord your God fighteth for you, as he hath promised, take good heed therefore unto your selves, that ye love the Lord your God. This was the Advice of *Joshua* to the *Israelites*, in his 23d Chapter and 10th and 11th Verses, and might well be applied to us of this Nation. Some eminent Soldier receives Favour from a Prince; Italy in full of Troubles, and the Jesuitical Party in Ireland very turbulent. Some great Lady in Italy afflicted with Death equals all. Some labells will be dispersed and the Inventors punished, for

He that kills Treason, and takes no regard,  
A Murder, sure, is but his just Reward.

A certain Prince, or Governor highly honour'd, and  
some belonging to the long Robe advanced. Pyrates at  
Sea doing much damage, but yet our Merchants, for the  
generality, have good News from abroad: A young Clerk  
kickt out of Service. A Town or Castle storm'd, and a  
certain Tyrant at his Wits-end, for there is no Peace,  
saith my God, to the Wicked. The Diseases of this  
Quarter are such as proceed from Pleurisies, Distempers in  
the Reins, Lameness, and violent Pains in the Feet, Aches  
and Gout Pains, as also Heart Pains, with fainting Fits,  
especially the Female Sex: And this brings me to the  
Consideration of the next, which is the

*Autumnal Quarter.*

Which begins this Year on Tuesday, September the 12th,  
at 48 minutes and 28 seconds past two of the Clock in the  
Morning, by Mr. Wing's Tables; but by Mr. Street's, at 38  
minutes and 45 seconds past three the same morning;  
by the former 26 degrees of Leo ascends, and 14 of Tau-  
rus culminates, and is at such time as bright Sol mounts  
the Sign *Libra* (or the *Balance*, which you please) cou-  
ches *Aries*, making again the Days and Nights at  
equal length, as in *March*. At the time of the ingress  
the Sun is in the second House, and Mars in the eighth,  
near the Cusp of the ninth; Saturn is near the Cusp of  
the tenth; but posited in the ninth; the Moon is located  
in her own House, and in the eleventh of the Heavens.  
The common People seem to grumble, and be un-  
easy, especially in Scotland many violent Deaths, and  
a Martial Man meets with Pequans from his Superior,  
if not arrested by the King's Terror. Some damnd  
Contrivance or Villany discover'd. A great Man that has  
*Scorpio* ascending at his Birth, is now (if Living) under  
great Affliction. *England* is still happy under the Protec-  
tion of a Protestant Queen, and the Learned Clergy are like

to flourish. Good News from abroad, and Armies drawing towards their Winter Quarters; and a great Lady weeps, which is all I shall say, as touching the Quarterly Ingresses for this Year, having spoke more at large upon every Month. The Diseases of this Quarter are such as proceed from Swellings in the Throat and Neck, as Evils, and other Swellings in those Parts, as also Melancholly, Winds in the Blood, Cramps, Pains in the Legs, Anckles, &c. so that

*He that would many Days. and happy, see.  
Let him first Wine, and next fond Women flee:  
For they may both unto him prove a Curse,  
Wine being bad, and a fond Woman worse.  
Yet Wine well used comforteth the Life,  
And a good Woman makes a vertuous Wife.*

*For the Lips of a strange Woman drop as a Honey-comb, and her Mouth is more soft than Oyl, but the end of her is bitter as Wormwood, and sharp as a two edged Sword, Proverbs 5. Verie 3 and 4, &c.*

38. Prince of Denmark born October 1701.

*A strange Prophecy recited by Mr. William Lilly in the Year 1681, relating to the French Nation, and the present King thereof, which is now like to be fulfilled; thus:*

“A Certain Prince as Religious as a Turk, shall over-  
 spread that Peoples Territories, and Wars and  
 Desolation will be occasion'd by the unruly Nobility,  
 who, by their Civil Dissensions, shall occasion the Ruin  
 of the French Monarchy, &c.  
 And further adds, “That the French King shall be  
 driven out by his own People, for he shall exercise very  
 great Tyranny both against his own Subjects and the  
 Church of Christ, being instigated or stirred up there-  
 unto by the Bishops and Romanists, who, being bri'd  
 with Money, shall traiterously seduce and betray him;  
 this he shall do in favour of his Kindred or Allies, but  
 when he shall be removed and deceived, he shall be left  
 all alone in Exile, or Banishment, abandoned and for-  
 taken by those he confided in, &c. And now to con-  
 clude, I shall here give you one Prophecy more, which is  
 infallibly true, and concerns all the Nations of the Earth  
 in general, and each Person in particular: It will certainly  
 come to pass, for the Mouth of the Lord of Hosts hath  
 spoken it, which is as follows: If thou hearken diligently un-  
 to the Voice of the Lord thy God, to observe and to do all his  
 Commandments, that then he will set thee upon high above all  
 Na-

Nations of the Earth; blessed shalt thou be in the City, and blessed shalt thou be in the Field, &c. The Lord shall cause thine Enemies that rise up against thee to be smitten before thy Face, all that thou settest thine hand unto shall prosper, &c. But if thou wilt not hearken to the Lord thy God, to observe and do his Commandments and his Statutes, Curses shall come upon thee and overtake thee; the Lord shall send upon thee Vexation and Rebuke, until thou be destroyed, and shall smite thee with blindness and madness and astonishment of Heart, and thou shalt grope at Noon day as the Blind gropeth in Darkness, and thou shalt not prosper, but be oppressed and spoiled, and no Man shall save thee; as you have it at large in the 28th Chapter of the Book of Deuteronomy.

And thus I end the Labours of this Year, with God preserve our most gracious Sovereign Lady Queen ANNE, and grant her a long and prosperous Reign, to be a Nursing Mother to these Kingdoms here on Earth, and to protect and defend the Protestant Religion, that at length she may be crown'd with Eternal Glory in the Everlasting Mansions of Bliss for evermore, is the humble Prayer of,

Gentlemen,

Yours and Urania's Votary,

FRANCIS MOORE.
